

# From Board to Ward

Hygiene & Infection Prevention & Control training for managers

'From Board to Ward' demonstrates the critical role all managers play in preventing and controlling the spread of healthcare associated infection. In particular, this documentary-style training DVD emphasises the key responsibilities of managers at different levels of a healthcare organisation. The DVD also explores key facts and figures regarding healthcare associated infection in Ireland and provides an in-depth analysis of current national initiatives.

The development of this DVD was supported by the HSE and involved national experts in the area to ensure the content reflected both national guidelines and best practice.

### About the Health Management Institute (HMI)

HMI is the professional body for managers involved in providing healthcare services in the public, private and the voluntary sector in the Republic of Ireland. The HMI's mission is to develop and promote professional standards of competence in the management of health services. It is dedicated to meeting the needs of those involved in healthcare through leadership, personal example, education, training, research and the dissemination of information.
