

Standard Precautions for infection control *Training DVD*

Irish Community Edition

'Standard Precautions for infection control', based on Irish national guidelines, provides valuable training and ongoing education on standard precautions for people who deliver health and personal social services in health facilities and communities across the country. The DVD focuses on four key content areas: Infection Prevention & Control; Hand Hygiene; Waste Management & Decontamination Issues; and Personal Protection. The DVD was developed in cooperation with the Infection Prevention Society and leading experts in the field of infection control, microbiology and waste management. By demonstrating the practical application of standard precautions, this DVD provides an easy transfer of skills to healthcare staff. This DVD is designed to facilitate both tutor-led group training sessions and individualised self-paced learning, is easy to follow and is suitable for staff at all levels, clinical and non-clinical.

Features

- Tailored for community healthcare.
- Developed in cooperation with the IPS.
- Based on national guidelines.
- Step-by-step demonstrations of hand hygiene techniques.
- Donning & removing PPE.
- Support materials (Facilitator's Guide and Participant Workbook) are provided.

Target Audience

- All healthcare staff (clinical and non-clinical) operating in:
 - Primary Care
 - Nursing Homes
 - Carer's Organisations
 - Home Help
- Recruitment/Nursing Agencies
- Universities/Colleges
- Contract Cleaners
